Ridgegate Reservoir

Version 2.1 June 2021

Parking is available on the road to the north of the reservoir (restrictions apply).

Additional parking is available in the car park adjacent to Trentabank Reservoir. This is chargeable, and MFFC parking permits do not apply.

Access to the reservoir is via the routes marked in blue. Note that the gates at A, D, E, F & G are locked and the MFFC key is required to unlock them. Gates at B & C are not locked. The gate at C (in the wall of the South Dam) gives access to the bank to the east of the South Dam.

Fishing is not allowed from the South Dam, or from the corner across the road from the Leathers Smithy pub, or from the roadside bank between points 2 & 3.

Fishing from the road is prohibited. Members may fish from the roadside bank between point 1 and point 2 (the end of the bushes approx. 30 yards to the east of gate F), when the water level is below the second water marker on the South Dam. Access to the roadside bank is via the locked gates at G or F.
